Bio Manish Agrawal

Manish is currently founder and CEO of Techment Technology, where they build a team of software developers using local talents and working on high end technology products from US and Indian startups. Within 2 year of operation they ramped up the team to 45 developers working mobile and web applications and will be venturing into BPM operation with an added capacity of 100.

Manish, acquired his undergraduate degree in Mechanical Engineering from IIT Bombay in 2002 and Masters Degree in Engineering from the Purdue University in 2004.

In December 2005, Manish co-founded Picsquare, his first start-up. As CEO of Picsquare, Manish was responsible for marketing and business development activities and executing long term vision of Picsquare. He played a key role in raising 2 rounds of investment for Picsquare. In November 2008, Picsquare was acquired by e-commerce portal Infibeam.com.

After successfully completing the transition of Picsquare to Infibeam.com, he moved back to his home town, Bhilai, to help his family in their business. He was responsible for setting up and operating a new rolling mill with capacity of 300 Metric Tonne per day.

Later he co-founded Techment Technology, an IT venture to be based in Raipur Chhattisgarh working along with start-ups and taking the complete responsibility of their technology and product development. Another unique aspect of Techment is - providing opportunities to local engineers to work on latest technologies who would otherwise migrate to metros. The model is widely appreciated by the state government with host of support from them.

He is also mentoring few start-ups and exploring investment opportunities in start-ups.

His interests include reading, travelling, meeting and helping young entrepreneurs.
