## National Science Day Celebration 2021

Since 1987, National Science Day is celebrated every year in India on February 28 each year to mark the discovery of the "Raman Effect" by Indian physicist Sir Chandrashekhara Venkata Raman on 28 February 1928. For his discovery, Sir C.V. Raman was awarded the Nobel Prize in Physics in 1930. It is one of the main science festivals in India. Every year students of the schools and colleges demonstrate various science projects and national and state science institutions demonstrate their latest researches on this day. The theme for National Science Day 2021 is "Future of STI: Impacts on Education, Skills, and Work". The National Science Day 2021 aims to motivate the students to gain hands-on experience in the field of science.

In our institute we, the First Year Applied science and Humanities Department of SVKM's Institute of Technology, Dhule celebrated 34<sup>th</sup> National Science Day on 6<sup>th</sup> March 2021 in online mode using MS Team platform. (Due to the unviability to some faculties due to COVID-19 infection, we were unable to celebrate National Science Day on 28<sup>th</sup> February.) In this program we conducted online activities such as Talent Hunt Quiz & Poster Presentation contest for the students. The winners of these competitions were awarded with event certificates. On this occasion college principal Dr. Nilesh P. Salunke sir expressed his thoughts and motivated the college students to think and explored new and innovative ideas and inspired them to try and modularized their ideas. He also appreciated the conduction of this program as well as he also explained the governments theme for 2021 National Science Day celebration. FE Coordinator Dr. Tushar Shinde announced the winners of conducted competitions.

For this event college principal sir, all first year concern faculties and students were present. The program was conducted by first year students Cultural Committee. Programme ended with refreshment for all students, teaching and non teaching staff. This program was coordinated by Dr. M. R. Sonawane.

## What is science?

The intellectual and practical activity encompassing the systematic study of the structure and behaviour of the physical and natural world through observation and experiment.

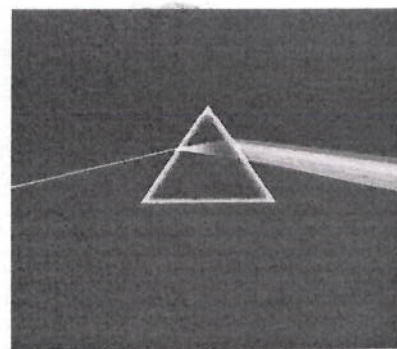

## Importance of science :

Science is one of the most important channels of knowledge. It has a specific role, as well as a variety of functions for the benefit of our society: creating new knowledge, improving education, and increasing the quality of our lives. Science must respond to societal needs and global challenges.

## Why 28th February?

The day is celebrated every year on 28th of February to commemorate the discovery of the 'Raman Effect'. On this day, Physicist CV Raman announced the discovery of the 'Raman Effect' for which he was awarded the Nobel Prize in 1930.
