Dates	:	3rd June 2023
Time	:	01:45 pm - 03:00 pm
Venue	:	Class room :- 208

Group Discussion:

Group Discussion encourages participation among passive learners and adds confidence to the students to appear in group discussion

Benefit of the Group Discussion:

- Group discussions bring together individuals with different backgrounds, experiences, and knowledge. Students can transcend and think beyond the confines of the classroom setting.
- Group discussions promote active participation and engagement.
- Through group discussions, participants can learn from one another's experiences, expertise, and interpretations. It provides a collaborative learning environment where individuals can exchange knowledge, clarify concepts, and fill gaps in their understanding.
- Group discussions stimulate critical thinking by challenging assumptions, analyzing different viewpoints, and evaluating evidence.

Goal:

The students will be able to appear in Group Discussion.

How we implemented Group Discussion:

- The coordinators have discussed the concept of GD on the previous day and asked for willingness from the students to GD the concepts on the next day.
- The students formed groups and prepared for the GD.
- The topics are related to the general issues and technologies are given to students.
- Then each group performs GD in a given time.

- On the basis of various criteria winners has been selected by judges.

Learning Outcomes:

- Students will be able to develop important skills of Group Discussion.
- Students will be able to learn and understand the rules of Group Discussion.
