| Training Organization | <p>Campus Credentials</p> |
| Brief Report on Activity | <p>The Fundamental of Programming training was organized by the Training and Placement Cell of the Institute with the above mentioned objectives.</p> <p>For every Placement process, the second step of screening the candidates after they clear the Aptitude Test is Technical round/ Programming Test. Most companies start their screening with Basic aptitude test and proceed on with the shortlisted candidates to check their Technical knowledge. Hence, it is of outmost importance that the candidates prepare well for the technical round and face the questions with a sound mind. Although the students regularly practice programming in their schedule, it is important to train them separately for Campus placements keeping in mind the level of coding skills that are expected by the corporates.</p> <p>The trainers started by teaching the basics of each topic (as mentioned in the syllabus) and then solved a few codes for practical understanding. The students were encouraged to interact and clear their doubts related to the topics being taught. After practice sessions, the students were given problems to solve and create codes, debug the programs etc. as a</p> |

| Brief Report on Activity | <p>The Advanced Programming training was organized by the Training and Placement Cell of the Institute in association with the Experts from Campus Credentials with the objectives mentioned above.</p> <p>After being able to bag the basic packages through Campus Placements, many students wish to go for higher packages (i.e. Dream Package- INR 4.50 LPA and above). In such cases, The Training and Placement Cell of the Institute of Technology takes the responsibility of training the students to appear for such companies who offer these kind of Placements. mind, the candidates are provided with rigorous training along with the experts from the Industry..</p> <p>The screening process for companies that offer such Dream Packages is tough and they expect the candidates to have a thorough knowledge of Programming. Keeping this requirement in a schedule was shared with the students and they were instructed to be present for the training sessions as planned. The trainers taught the students all the advanced</p> |

The Student orientation program plays an important role in a student's transition. Orientation programmes are aimed at familiarizing the students to an unknown campus environment, its faculties and infrastructure. It enables them to make essential connection with studies and develop network among other peers.

The three basic goals of any college when organizing an orientation program are:

- Introducing students to their college life.
- Incorporating them in the college environment.
- Familiarizing students with the general formalities, rules and regulation of the department.

The program was started with general instructions delivered by Prof. Ikhar. Then students were introduced to the achievements of department, future goals, Career opportunities and scope of civil engineering in professional set up, etc. by Prof. Jirwankar.

Then students were introduced to professional body of the department, CESA. There were several ice-breaking activities performed in the class. Additionally, they also shared their expectations from the department.

Session was concluded with speech by Prof. Shrikant Randhavane (Head of the Department).

Subject: Regarding the permission for arranging a 02-Week Workshop on "OpenFOAM - free, open source CFD software" from 8th May 2023 to 20th May 2023.

Respected Sir,

The Department of **Mechanical Engineering** is organizing a **02-Week Workshop** on "**OpenFOAM - free, open source CFD software**" for **students and faculties of Mechanical engineering**. This Workshop will be conducted through the IIT Bombay platform - Spoken Tutorial. OpenFOAM is an Open-source/ free CFD (Computational Fluid Dynamics) software for solving and analyzing problems and creating a real-world fluid flow movie. It is equivalent to FLUENT. Widely used in Academics and is gaining popularity in Industry as well- Companies including AUDI, Tata Steel, Volkswagen, and Govt. agencies like BARC (Bhabha Atomic Research Center).

Knowledge of this software can be useful to students as well as faculty members in the research process, final year projects as well as training and placement etc.

There is no registration fee for this workshop.

The proposed duration of the program will be from 8th May 2023 to 20th May 2023. So, kindly permit for the same.
